Subject:	UCPath coming to UCSF June 2020
Date:	Friday, November 15, 2019 10:50:55 AM

Dear Members of the UCSF Community,

I am writing to update you about the systemwide UCPath project and the implementation of UCPath at UCSF. UCPath aligns payroll, benefits, human resources, and academic personnel transaction services across all University of California locations. By implementing modern technology that supports our ability to accommodate future growth, UCPath will allow UCSF to focus on our core mission of advancing health worldwide.

Because UC is a complex organization with more than 200,000 employees across 20 locations, UCPath is being launched in phases. UCPath is already in use by more than half of all UC employees systemwide. UCSF is part of the final deployment and benefits from the experience of earlier UC campus and medical center deployments.

The UCPath Executive Leadership Team recently approved a revised deployment date of June 1, 2020 for UCSF. In preparation for our go-live, the project team continues working to ensure that data will be accurately converted and UCPath will integrate with current campus and health systems. This date also provides additional time to test new system enhancements and establish a local support center for all 28,000 UCSF employees.

When UCPath launches at UCSF, all employees will have access to UCPath online, a self-service tool that provides 24/7 access to payroll, benefits, and human resources information. Employees will be able to log in from mobile devices and computers at work or home to view and update personal information, view earnings information, sign up for direct deposit, update tax withholdings, view or enroll in benefits, see vacation and sick leave balances, and more.

The UCSF UCPath website is your primary resource for essential information about UCPath at UCSF. There you can read more about how UCPath will affect you and subscribe to receive project updates. In addition, a network of department change agents will communicate at a local level to help ensure that everyone is ready for UCPath. The Change Agent Network for campus departments is already active, and one is being formed for UCSF Health.

As the go-live date approaches, you will receive additional information about preparing for UCPath. The UCSF UCPath training team will offer a variety of courses, both instructor-led and web-based, to ensure that employees are knowledgeable and ready for UCPath. Administrative staff and others who specialize in payroll, benefits, human resources, and workforce administration will receive targeted training on how to perform their job responsibilities using the new system.

UCPath will have an impact on all employees, and we encourage you to stay informed. To learn more, subscribe to project updates, or find your campus Change Agent go to UCPath.UCSF.edu.

Thank you for your partnership in this important transition.

Sincerely,

Sam Hawgood, MBBS
Chancellor
Arthur and Toni Rembe Rock Distinguished Professor
