Overview

Take charge of your own development and the future of your career. This 5 part series introduces you to 10 competencies that are essential to succeed in any job.

You will have the opportunity to learn alongside your peers and share best practices as you progress through each course. (See course descriptions on pg. 2).

Each course is 4 hours long and they take place once a week for 5 weeks.

Through in-class activities, discussions, assessments, and on-the-job assignments you will acquire the knowledge and develop the skills to identify your strengths as well as opportunities for improvement in order to grow professionally.

Learning Outcomes

After completing the series you should be able to:

- Take charge of your own professional success.
- Meet the challenges of a changing workplace.
- Highlight your current strengths and areas of potential development.
- Enhance competency in communication, customer focus, systems thinking and problem solving.
- Create a plan for continual development.
