Subject: October 29th - Campus transition from SRS to PeopleConnect Management Actions

Date: Tuesday, September 18, 2018 4:14:04 PM

Dear HR Service Request System Users,

After months of work by a dedicated cross-departmental team, I am delighted to announce that we are transitioning to a new HR transaction system called PeopleConnect Management Actions. The new system provides a more streamlined interface while maintaining the functionality of the HR Service Request System (SRS). The new Salesforce-based platform also provides a flexible platform to help HR meet the changing needs of our dynamic institution.

Starting Monday October 29, all new HR transaction requests will be initiated in PeopleConnect Management Actions. In the weeks ahead HR teams will provide training, communication, and user guides to support this transition. Please visit the [PeopleConnect training tile](#) for more information and access to training materials as well as to sign up for one the webinars planned on October 8, 9, and 11.

We are grateful to the campus departments and HR teams who have been using PeopleConnect Management Actions since January of this year as part of the campus pilot deployment. Approximately 2,000 Management Actions have been completed during the pilot, helping to ensure that the transition for current SRS users will be as smooth as possible.

I appreciate that making this transition will require adjustments for all of us. My HR team is working hard to make this process as smooth as possible.

My team and I welcome your feedback. Thank you for your partnership during the transition.

Best regards,
David
