

# UCSF Primary Care

**Switching to a UCSF Primary Care provider; it's convenient and easy for UCSF employees and their dependents to set up a new patient appointment!**

- UCSF employees may email their requests for new patient primary care appointments to [PrimaryCareCares@ucsf.edu](mailto:PrimaryCareCares@ucsf.edu) using their UCSF email account (**\*\*This email is for schedule requests only\*\***)
- Provide your first and last name (or first and last name of the person requesting the appointment)
- Provide a phone number and good times to reach you (or your dependent) during normal business hours
- Provide your insurance information

You will receive a response from one of the new patient navigators within 2-5 business days. If you do not have email, or prefer to call, you may call 1-844-PCP-UCSF.
