Care close to home

UCSF Health provides innovative, high-quality clinical services and ensures an unparalleled patient experience across the care continuum.

In addition to our UCSF hospitals in San Francisco and Oakland, we collaborate with affiliated hospitals and other providers to offer families convenient access to highly specialized care. Our doctors also treat patients at specialty care clinics, which are affiliated with medical groups and hospitals in communities throughout Northern California and beyond.

Our health system encompasses clinical services offered at:

- **UCSF Health adult hospitals** at Hyde, Mission Bay, Mount Zion, Parnassus and Stanyan
- **UCSF Benioff Children's Hospitals** in Oakland and San Francisco
- **Primary and specialty care clinics and centers** across the Bay Area
